Acknowledgements

- First and foremost, Thank God!
- I would like to express my special thanks of gratitude to Smita Ma'am for the guidance and support in completing my project!
- I would like to extend my deepest sense of gratitude to Mr. Ken Kahn for his valuable comments and expert guidance!
- Thanks to my friends for the support and motivation!
- Last but not the least, I would like to convey my heartfelt thanks to my parents for their support! Special Thanks to my Mom for her interest in my experimental results which motivated me to give my best.

About Me..

- Student's Photograph

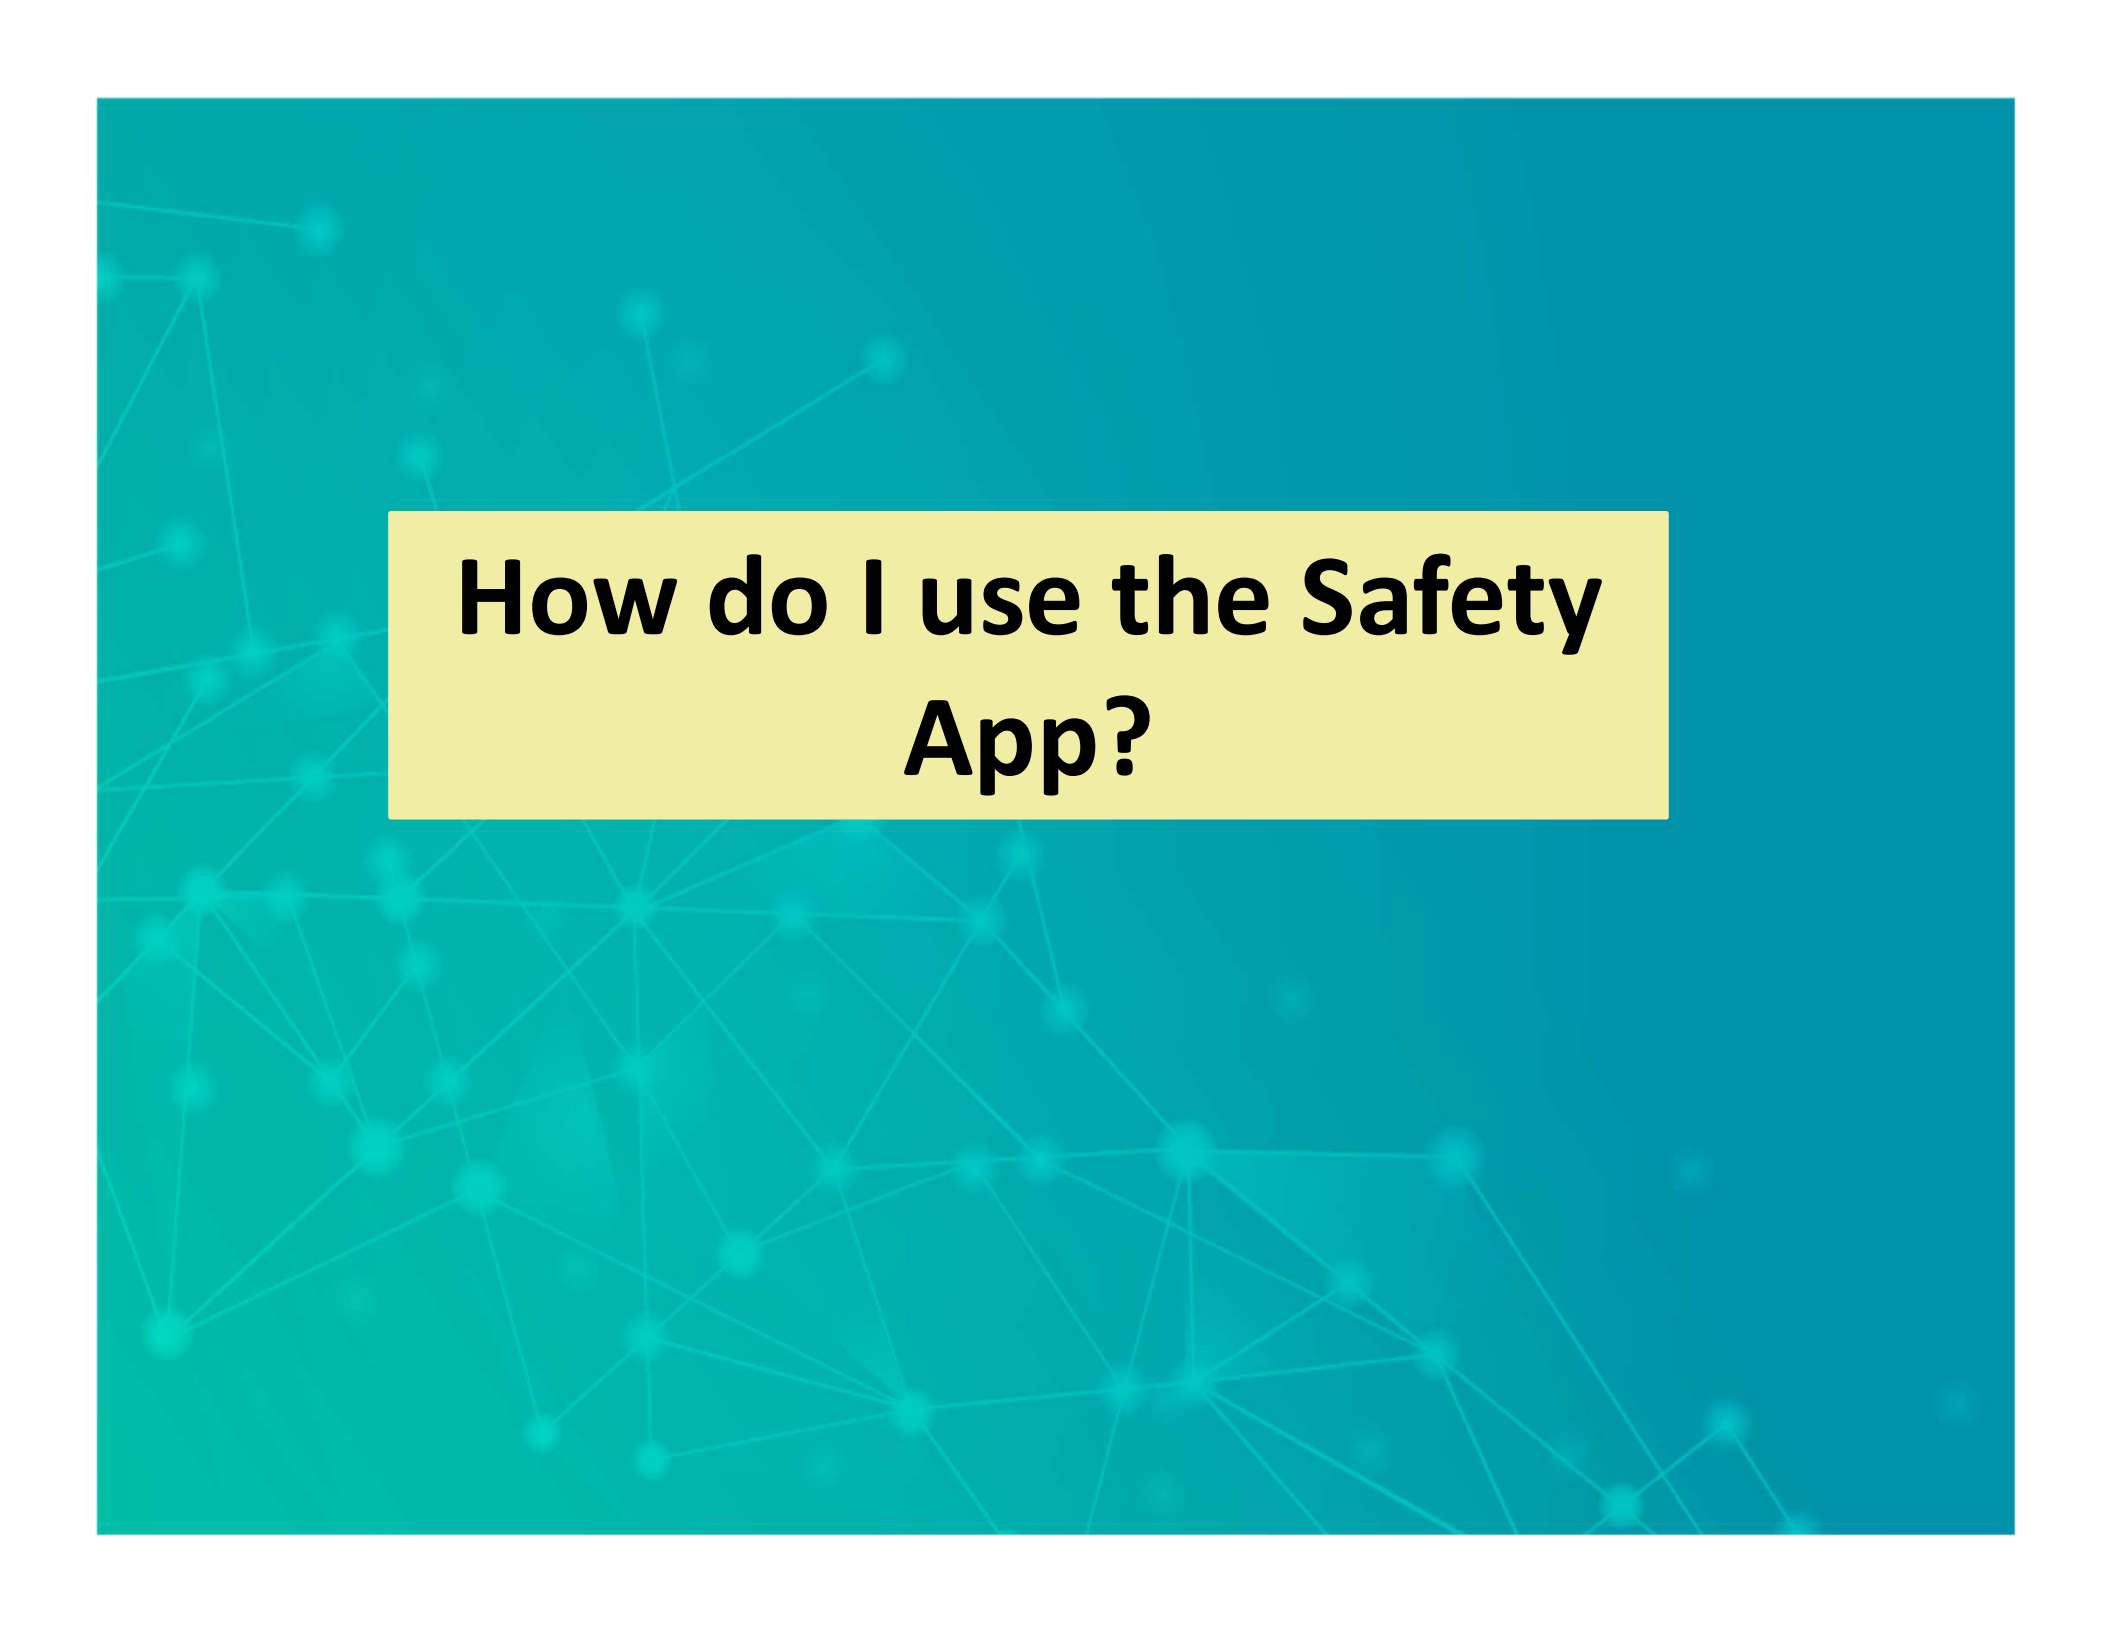

- Student's Introduction
 - Name: Nazneen Fathima
 - Grade: 2
 - School : Global Indian International School
 - Place: Abu Dhabi, UAE

About My Internship with Clevered..

- It was a wonderful journey! I've learned new things and make new friends!
- Badges Earned:
 - Received Rock star recognition 4 times in a row.
 - 3 times for knowledge sharing!

About Safety App..

- **Safety App Introduction**
 - An app that would simply run on a user's browser , scanning the face and hand gestures and warns with a sound and notification whenever the user touches their face.
 - App changes its background once user is about to touch their face.

How do I use the Safety App?

Safe Scenario

- Set distance threshold to a number – example: 100
- Normal scenario – when user doesn't touch his/her face.
- The application will stay with green background with no notification.

Safe Scenario – Touch head/other than face

- Set distance threshold to a number – example: 100
- Touch head/neck area with left or right hand
- The application will stay with green background with no notification.

Unsafe Scenario – Touch nose

- Set distance threshold to a number – example: 100
- With right or left hand if try to touch his/her nose.
- When the distance between hand and face gets less than distance threshold, background changes to red colour and warning sound comes which says “Don’t touch your face”.

Unsafe Scenario – Touch eye/s

- Set distance threshold to a number – example: 100
- With right or left hand if try to touch his/her eyes.
- When the distance between hand and face gets less than distance threshold, background changes to red colour and warning sound comes which says “Don’t touch your face”.

Contact Person

- Please reach out to Nazneen Fathima @ NazneenShefeeque@gmail.com for any questions/ concerns/ suggestions on the App

The background is a solid teal color. Overlaid on this is a network of white dots connected by thin white lines, creating a web-like pattern. The dots are of varying sizes and are distributed across the entire frame. The lines connect the dots in a non-uniform, organic manner.

Thank you!
